Accumax A Series Pipettes

Micro Volume Pipette

Precision and accuracy are of the utmost importance when it comes to using pipettes, but existing products tend to fall short as they don't deliver reliable precision. In addition, most of these pipettes are not fully autoclavable which leads to greater inconvenience for users.

After years spent researching about customers' expectations and requirements related to micropipettes, Accumax designed and developed the Accumax A pipettes which combine a fully autoclavable setup with a lightweight and ergonomic body for a hassle and pain-free pipetting experience while maintaining unmatched accuracy and precision.
